

# MADDIE MAIN

DIRECTOR

**Maddie Main** is an inspiring filmmaker who discovered her love for storytelling at a young age. Born and raised in Kansas City, Missouri, she moved to California in 2025 to further her creative career. How she captures stories evolved naturally, starting with photography and eventually leading her to videography. Maddie's cinematic vision is clear: she strives to create immersive stories that make audiences feel connected to the characters, experiencing love, hate, and relatability through film.
