

# LAURA MORSMAN

## PHOTOGRAPHER

My photography is rooted in portraiture and editorial storytelling, with recurring themes of fashion, raw emotion, empowerment, and inclusion. I approach each project as a collaboration—blending my background in psychology with my deep respect for human connection to create imagery that is both visually compelling and emotionally resonant.

### EXPERIENCE

- **Owner/Photographer, Laura Morsman Photography**  
*April 2012-Current*

Throughout the last 15 years of business, I have had the opportunity to work with my incredible clients. From large businesses and brand overhauls, to small business and private client portraits, I truly am so incredibly grateful to do the work I do.

- **Hiring and Selling Manager/URBN/Anthropologie**  
*April 2010-April 2012*

I managed Anthropologie stores throughout North and Central Texas. I loved this position so much. My goal at each store I worked for was to be inclusive in my hiring practices, provide a safe and supportive environment for my employees, and to ensure that the voices of all employees were heard and respected no matter their stature in the company.
